OFFICIAL CASE FILE

DOSSIER #G-103

THE HAUNTING OF BLACKWOOD SANITARIUM

DATE	October 14, 1924
LOCATION	Ward 4, Blackwood Hills, Massachusetts
SUBJECT	Head Nurse Evelyn Croft (Deceased Under Anomalous Circumstances)
STATUS	UNSOLVED // ANOMALOUS

Paranormal Case File #G-103 — an evidence-based investigation dossier.

TOP SECRET // CLASSIFIED

I. INCIDENT SUMMARY

On the eve of the winter gale, Nurse Croft was discovered unresponsive in the locked hydrotherapy vault. Room temperature dropped to -8°C despite sealed boiler pipes. Scratch patterns on copper tubs match no human fingernails.

II. FORENSIC AUTOPSY & TRACE EVIDENCE

Severe hypothermia in heated chamber. Sub-dermal bruising in the shape of antique 18th-century medical calipers. Retinas exhibit permanent crystalline luminescence.

III. CLASSIFIED REMARKS

Field teams are advised that contact with entity causes permanent optical damage and auditory hallucinations. Keep all iron salt barriers intact.

TOP SECRET // CLASSIFIED

EVP — ELECTRONIC VOICE PHENOMENON ANALYSIS

96.4 kHz high-resolution capture. Transcripts verified against the raw field recordings.

TIMESTAMP 02:14:08 AM · FREQUENCY 412 Hz
[Heavy static, mechanical bell rings twice]

'She took the copper keys… down where water sleeps.'

TIMESTAMP 02:18:42 AM · FREQUENCY 528 Hz
[Glass shattering resonance]

'Do not open the drainage grates!'

EMF & GEOMAGNETIC FLUCTUATION LOG

ZONE / ROOM	PEAK EMF	ANOMALY RATING
Ward 4 Vestibule	1.2 mG	**Normal Background**
Hydrotherapy Vault Door	4.8 mG	**Extreme Hazard (Level 4)**
Central Drainage Grate	8.9 mG (Max Off-Scale)	**CRITICAL ANOMALY (Level 5)**

SPIRIT BOARD / OUIJA CIPHER — AS RECORDED

Planchette movements recorded by high-speed infrared strobe:

K-E-Y-S---U-N-D-E-R---B-O-I-L-E-R---7

Investigator note: the cipher reveals the physical hiding location of physical evidence. Decode it before opening the sealed reveal.

PERSONS OF INTEREST & INTERROGATION RECORDS

TOP SECRET // CLASSIFIED

Dr. Alistair Finch — Resident Surgeon

Interrogation note: Claims he was calibrating ether valves in basement, but coal dust was found on his laboratory coat collar.

Thomas Graves — Night Caretaker

Interrogation note: States he was stoking the central furnace, yet the fire died out precisely at 02:00 AM.

Patient #402 (Eleanor Ward) — Involuntary Inmate

Interrogation note: Was restrained in Ward 2, but accurately drew the victim's exact injury pattern 3 hours before discovery.
